

MASTERS OF DRIVING

WELCOME TO YOUR MASTER MASERATI DRIVING COURSE

We're delighted that you've chosen to embark on your Master Maserati journey with us. Your experience will be exhilarating and unforgettable. Welcome to the Maserati family.

The atmosphere at the venue is friendly and informal. Our championship-winning drivers and behind-the-scenes crew take complete care of everyone who joins us, including non-driving guests, so you'll feel right at home.

The Varano de' Melegari track, while technical, always brings out the best in people – whether you've made an individual booking or you're taking part in a tailor-made incentive programme.

This is thanks in large part to the insights gained from telemetry and video analysis, which make the experience even more enjoyable and can transform the way you drive.

Then, of course, there are your Maserati vehicles. Whether it's the Quattroporte, the Ghibli or the Levante. The GranTurismo or the GranCabrio. Even the mighty GranTurismo GT4 race car and legendary MC12 Versione Corse.

Each is designed for speed but also accessibility, putting deep reserves of dynamic power comfortably in the palms of your hands. After all, every Maserati embodies the spirit and passion of grand touring.

We look forward to saying, 'Benvenuto al tuo Master Maserati!'

'You need great passion, because everything you do with great pleasure, you do well.'

Juan Manuel Fangio

RACE

It's amazing how far you can progress in just a few days – and with the right guidance and preparation, you are soon ready to experience first-hand the raw excitement of being a Maserati racing driver. In this two-day course, you will be driving a full-blooded racer – the GT4. Before you're strapped in to that six-point harness, you

get to know the vehicle inside and out. Then, after expert coaching, you're ready to hit the track and discover what the GT4 car really can do – and how far you can take it. There will also be timed, competitive driving. As with professional motor sport, you'll be supported by an expert team, from seasoned mechanics to telemetry experts.

RACE
